*An Australian First*, Print Blocks & Roberts Confectionery have partnered to bring you this amazing new machine from *Provo Craft*, with the ease of use, beauty and customisation that has been available to scrapbookers for years, the Cricut Cake will revolutionise the way we make cakes in Australia.

Find out more and order your Cricut Cake at [www.cricutcake.com.au](http://www.cricutcake.com.au)

# the Cricut Cake

The Cricut Cake works in three easy steps, *just like its sisters in papercraft.*

1. Simply insert your cartridge (there are 100's to choose from) into the Cricut Cake
2. Roll out your modelling paste, place it onto the cutting mat and load into the machine (as long as it has a similar consistency it will also cut other substances like cookie dough!),
3. Choose a shape, size & it cuts out your chosen designs all by itself!

The machine can also use pre-made effects like resizing, repeating shapes, mirroring and adding designs together for stunning effects and endless possibilities.

Each cartridge contains a collection of themed shapes, that can be cut out of your gum paste with the Cricut Cake. Some shapes, like those used below are made up of layers that can be split apart for different effects. There are even licensed cartridges for putting together layered creations of popular childrens themes like Mickey Mouse, Pooh Bear, Cars, Batman, Spongebob Squarepants and Hannah Montana.

There are hundreds of Cricut Cartridges available and with new additions released throughout the year you are sure to find the perfect one for your theme.

*Stop searching for cookie cutters!*

The size of your shape is controlled by a simple dial on the machine, cut out a larger shape for a cake, and then a smaller identical shape for cupcakes with a flick of your fingers!
